

# Mitigating Beyond Design Basis Events

See how this Training from Certrec Academy can help you educate and guide your team to better understand industry-developed diverse and flexible coping capabilities to manage catastrophic events.

## Who Needs This Training?

Any nuclear professional needing a basic understanding of FLEX and strategies for dealing with severe beyond-design-basis events (BDBEs).

### Challenges You Face Today

- **Loss of Knowledge:** Fundamental industry knowledge can be lost if newer employees are not trained and prepared for their roles.
- **Experience Gap:** Experienced plant personnel are rapidly retiring, creating an experience gap in the industry.
- **Self-Study is Difficult:** Tackling complex concepts alone can be challenging. Engaging with instructors and peers enhances your learning experience and provides deeper insights.

### Mitigating Beyond Design Basis Events Objectives

- Summarize the Fukushima accident in Japan and the associated lessons learned.
- Describe the actions taken by the NRC in response to the Fukushima accident.
- Describe the diverse and flexible mitigation capability provided by FLEX equipment.

### What's different about Certrec Academy's training?

- A focus on the practical and making it easier to understand and remember
- Strong engagement via videos, stories, thought-provoking Q&A, and mentorship
- Better retention by a clear explanation of the context backed by a historical perspective
- Live tutor during e-learning and a mentor post-instruction
- References, videos, and slides that are connected to the NRC and proven in their effectiveness of teaching theory and operational effectiveness

## We Teach Tacit Know-How!

### Mitigating Beyond Design Basis Events is Efficient and Cost Effective:

- Convenient webinar by a live instructor, on-the-spot answers to questions, and expert mentorship after the course

### Mentor interactions include:

- Dialog following course completion
- Follow-up interaction for six months

### This training includes access to relevant resources:

- 94 slides
- 51 references
- 3 videos

### Price: \$345 per student

To get this training, please contact: [support@certrec.com](mailto:support@certrec.com) or call 817-738-7661.

\*Credit card payments are accepted (4% processing fee).

# Why Certrec Academy?

1. We are not just a training team; we are practitioners who deliver consulting services to real operating plants daily. **We teach what works** in the real world.
2. Upgrade your approach to training with relevant, engaging content employees will look forward to seeing and learning.
3. Certrec Academy's e-training is delivered via the Internet and combined with real-world experts, proven videos, NRC references, a live tutor, and mentor interactions to deliver exceptional results.

## Elevate your team to

### Be informed. Be knowledgeable. Comply with Regulations.

- Get access to diverse and numerous regulatory and industry references
- Enjoy a wide range of compelling e-training topics on demand
- More than 1,000 items of content, modules, and videos covering 19 topics

#### About Certrec:

Certrec is a leading provider of regulatory compliance solutions for the energy industry. Our SaaS and consulting services have helped hundreds of power-generating facilities manage their regulatory compliance and reduce their risks across nuclear, fossil, solar, wind, and other power plants. Certrec has helped more than 120 generating facilities establish and maintain NERC compliance, and we manage the entire NERC compliance program for 60+ registered sites in the US and Canada that trust us to decrease their regulatory and reputational risk. Certrec is ISO/IEC 27001:2022 certified and has successfully completed a SOC 2 Type 2 examination, resulting in independent verification of the standards of security, availability, reliability, and trusted services that we provide.
